## **SURGERY INFORMATION**

### **Consultations**

are by appointment only. Appointments can be made by telephoning the surgery, patient online access or in person at reception. Should you be unable to keep an appointment, please contact the surgery to advise of a cancellation giving as much notice as possible so that the appointment can be offered to another patient.

### **Named GP for ALL patients:**

Named GP's will not take 24 hour responsibility for the patient or make a change to their working hours, the requirement does not imply personal availability for GP's throughout the working week. The named GP cannot be the only GP to care for the patient. Please ask the reception staff who your named, accountable GP is. Patients may express a preference to see a particular doctor when making an appointment. However, should the doctor of your choice be unavailable, you will be offered an appointment with another GP within 48 hours or a nurse/primary care professional with 24 hours.

**\*\*\* Please be aware this does not affect your ability to make an appointment with any of the GP's in the practice \*\*\***

### **Telephone Consultation.**

Ring the surgery at 8am; speak to a receptionist to request a telephone consultation with the GP. The GP will ring you at the end of morning surgery. Each GP has 4 telephone consultations per morning session.

### **Test Results.**

Please telephone for ALL test results between 2pm and 6pm  
It is the patients responsibility to to contact the Surgery for the results of Investigations.

### **Home visits**

are reserved for patients who are truly house bound or so incapacitated that they cannot be brought to the surgery. Home visits are based on medical need. Please phone for a home visit before 10am. In almost all cases children can be safely brought to the surgery where we have the best conditions for examination. If you come to the surgery during normal hours (or to the emergency centre during out-of-hours) you will be seen, treated and if necessary referred more quickly. This allows your doctor to work more effectively to help you now and in the future. Out of hours cover is provided by GO to DOC. The local out of hour's clinic is at Litherland Town Hall Health Centre and is by appointment only. GO to DOC may offer a different address for you to attend. We ask that the out of hour's service be used for genuine medical emergencies only.

### **New Registration.**

All persons making an application to join the practice list must do so by requesting an application pack from our reception. Please check with reception staff that you live within the practice boundary – a map showing boundaries is available at reception. Completed forms should be returned to reception to facilitate registration. Should registration not be acceptable the practice will provide a reason in writing within 10 working days. A new patient check appointment with a HCA/nurse will be made with all newly registered patients to ensure that the practice offers the most appropriate medical service to each patient.

### **Disabled Access.**

Wheelchair access is available via a ramp in front of the building. A disabled WC is available on the ground floor. Should you need assistance please ask at reception and a member of staff will be pleased to help.

### **Repeat Prescriptions.**

Please give 48 hours' notice for repeat prescriptions. Please use the tear off request portion from your last prescription or by letter or by using the forms available at reception. We DO NOT accept prescription requests via the telephone as this method is prone to error and misinterpretation and is therefore dangerous.

**Please remember it is your responsibility to ensure you order your repeat medication on time. Always allow extra time for weekends and public holidays**  
**Patient Online Access:**

This service that lets you use the internet to arrange an appointment with a GP, order repeat prescriptions & view a summary of your medical records. Please speak to a member of our reception team for further details.

**\*\*\* Please note this service is unavailable for patients under the age of 16 \*\*\***

### **Smoking.**

The practice supports all patients who wish to give up smoking and can offer appropriate advice and support to do this.

### **Translation Service.**

The practice has access to translation services. Should patients require an interpreter then this should be organised in advance – please contact the reception for details.

### **Abusive behaviour.**

The practice adopts a Zero Tolerance Policy and reserves the right to remove all violent and abusive patients from its list and will do so in writing in the line with NHS and Sefton Primary Care Trust Policy. Patients who persistently do not attend their appointments will also be removed from the practice list in accordance with the practice policy.

### **Data Protection Act.**

All patient records are dealt with in accordance with the Data Protection Act and disclosure to a third party will only be made with the written permission of the patient or their parent or guardian in the case of children under age of 16. Access to information by the patient is dealt with under the Freedom of Information Act.

### **Comments, Suggestions & Complaints.**

Suggestions for improvements and complaints are always welcomed. We hope that you will never have cause to complain, either with regard to your medical treatment or for any other reason. However, if such an occasion arises we hope that an informal discussion with the Practice Manager would enable any situation to be resolved.

### **With the rights come responsibilities and for the patients this means:**

1. Courtesy to staff at all times, remember they work under doctor's orders.
2. To attend appointments on time or give the practice adequate notice that they wish to cancel. Someone else could use your appointment.
3. An appointment is for one person only – where another member of the family needs to be seen or discussed, another appointment should be made.
4. Patients should make every effort when consulting the surgery to make best use of nursing and medical time home visits should be medically justifiable and not requested for social convenience.
5. Out-of-hours calls (e.g. evenings; nights & weekends) should only be requested if they are felt to be truly medically necessary.
